Coming Soon

Some projects are not yet uploaded! More projects will be added here as I continue learning and building.

Experience & Learning

2025 - Basic Calculator Project - Simple Bank System

Developed a simple Java calculator to practice object-oriented programming. Created a C banking system to strengthen understanding of programming concepts and system logic.

2024 - HTML & CSS Learning

Built my first static website and portfolio.

2023 - Programming Fundamentals

Started my journey in BSIT, exploring logic, C, Java, and Python basics.
